## What we do...

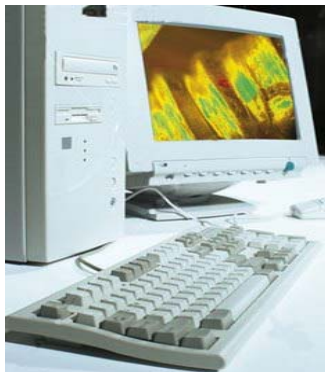

### New Equipment

**Custom PCs** - Whether you need a basic computer to check email with, or you want a full blown custom gamer, we can help. We specialize in custom fitting each application to the needs of the user. No more buying too much or too little.

**Custom Servers** - File Servers, Domain Servers, Game Servers...you name it, we build it.

**Workstations** - Need a few Workstations for a small office? Need 200 Workstations for a large one? We can do it at a fraction of the cost of off the shelf models.

**Networking** - Share your dialup connection with other users, share DSL or Cable with the rest of the family, share files and printers with other users in the same office or across town. If you need it, we can do it.

New Custom PCs to fit  
your needs

### Equipment Repair and Upgrades

**Computer Repair and upgrades**- Bad hard drive? CD-Rom acting up? Want to install a CD Burner? Need more memory? Help is just a phone call away. Let us get you back on track.

Sick Computer? We can  
help.

**Network repair and upgrades** - Is your network giving you more trouble than it should? We can make your network work for you with faster, more reliable connections. Whether you have a server based or Peer to Peer network, we can make it work like it was designed to.

**Laptop/Notebook Repair** - We repair all brands of laptop and notebook computers. We have a wide selection of parts available so you aren't without your computer any longer than necessary.

### Maintenance

**Backup Systems** - Setup unattended backup systems, or just a simple backup program. If your system ever goes down and you need to restore from your existing backups, then we are here to help. We can get you going in no time.

**File and Disaster Recovery** - Floods, Lightning, Wind...whatever takes your computer out, we can help you recover from. Extensive data recovery from crashed hard drives or rebuilding systems after a disaster. Its all in a days work for us.

### Installation and Setup

**New Computer Setup** - If you don't know what to do with all those cables on the computer that you just unpacked, don't worry. We can come by and get your new computer all hooked up. We can install all of those accessories also. Digital camera, scanner, printer...you name it, we can help.

**High Speed Internet and Router** - Need high-speed internet but don't know the difference between a router and a modem? Just give us a call, and we will have you online in no time. Firewalls too, no sweat.
